Hi, Chris:

I just left you a VM message -- thanks for your voice mail earlier today.

I've not been able to speak with James McGuire to see if he and anyone on his staff could make a meeting next Tuesday, but I can meet at any time that day. I will be the only attorney from this office who will participate, so as far as legal representation that day, the City is covered.

Susan, Chris, Carlos and John: it's been a very long time since we worked together.

Good morning, guys:

Is there any way we can set up a tentative meeting, subject to Chris 'and Mark's availability, and Mark's ability to delegate since he'll be out Monday and Tuesday next week, to discuss a communications/action plan? We have a limited period of time before we must brief the City Council on the matter, and we have concurrence processes similar to the Agency's.

Thanks a lot.

John,

I am looking forward to coordinate Lane site activities and work with you. I am out of the office tomorrow, therefore, Chris Villarreal will take the lead from my group to keep it moving. As Mark said, we are pushing it as fast as we could. Chris will touch base with you tomorrow and will keep you posted.

Thanks a lot, Mark.

Ben/Elizabeth:

Please do get in touch with me as soon as is possible – I had not realized that the matter would be elevated to the City Council at this time, after I had discussed the findings of my conversations with Elizabeth at the beginning of last week. My cell no. is (b) (6) should I not pick up at the office – please do not worry about calling after hours since this has become a very hot topic.

John - To follow up on our conversation, I talked to Ben and gave him your numbers. He should get in touch with you soon. I will be out Monday and Tuesday but Elizabeth will be back in the office. Ben understands the urgency and is working to coordinate within the Region to make sure the correct representatives are included. I do not know if he will have that cleared by tomorrow but he is pushing it as fast as he can.

Mark:

I need to talk to you immediately about a site the Region is moving forward for NPL listing – its pre-score is high enough, and it obviously will be Fund-lead. It hasn't hit Carlos' desk yet, but I've spoken w/the guy who's handling the listing.

The City had not been told about this site until the Park & Recreation biologist happened on the site in connection with feral pig issues. It's in an EJ community and is ca. ¼-mile from Paul Quinn.

We have a duty to inform the City Council asap, so a memo is to go out shortly. I'm in the review loop and asked that it be held in abeyance until I talk to you and the public affairs folks. This will be a huge issue if we don't coordinate asap.

Please call me as soon as you can. I left a VM message at the office and tried you on your cell, but your service apparently doesn't allow messages if the "subscriber is currently unavailable."
